Subject: RE: FL

Hi Marietta:

The meeting was short and very amicable, as always. IVB2 just wanted to thank them directly for their willingness to collaborate with us throughout the process. They mentioned that they hadn't yet really had the time to digest and peruse the registrations and associated materials, but that they were scheduled to have an aldicarb meeting later in the day. We also offered them our availability as they move closer to the state registration and implementation of the product roll out, and we vowed to continue our working relationships moving forward. However, let me know if you have additional questions.

Best regards,

Marion J.
